

SUN CITY
PALM DESERT
Community Association

December 17, 2012

To Whom It May Concern:

Having recently worked with NPG, Inc. seal coating over 3,000,000 square feet of residential streets here at Sun City Palm Desert Community Association, it gives me great pleasure to recommend NPG, Inc. to your firm.

During this project, NPG worked closely with our staff on scheduling and traffic control. Keeping Sun City residents informed of street closures and detour routes helped to minimize the inconveniences associated with a job of this magnitude. NPG staff went above and beyond by assisting lost drivers with directions on getting around construction areas.

It was a great experience working with NPG's crew. Everyone was professional and courteous. They met each day's goal and were able to deal with any challenges that came up. They made sure the work and staging areas were clean, safe and secure before leaving the job site.

In the end, NPG delivered a beautiful final product, on time and within budget. I appreciate the hard work Jeff Nelson and his staff put forth to make this happen.

I recommend NPG, Inc. and if given the opportunity, would hire them again for future work.

Sincerely,

Mitch Meyer
